YOUR ROADMAP TO

WHY OR BUSINESS MANAGEMENT CONFERENCE?

Take a trip to San Antonio, Texas, and realize all that OR Business Management Conference has to offer. In its 10th year, the conference brings together OR business leaders from across the country for 4 days of learning and networking. This is the ONLY conference built specifically for the business leaders of the OR suite. Earn CEs and explore new technologies with solutions providers.

THOUGHT-LEADERSHIP

The speakers who present are well-respected and experienced perioperative business executives. Listen as they share their personal experiences and insights during breakout sessions across 5 core areas on which business leaders should focus: data and analytics, finance, operations, performance improvement and supply management.

During the OR Business Management
Conference, you'll connect with perioperative
pioneers, new vendor partners and fellow leaders
who are experiencing similar challenges as you in
their day-to-day management of the OR. Come
find the connections and solutions are you seeking.

TECHNOLOGY

With more than 30 vendors, you will be sure to find the exact technology and solutions you need to run your OR with optimum efficiency. Our vendor partners are equipped to help you build the perfect solution for all your OR business needs.

SOLUTIONS

Solutions for your OR needs come from fellow attendees and vendors. Whether you are looking for insight on supply chain management, new technology for your prefcards, or fresh ideas to handle nurse burnout and retention, you will find solutions to your pain points at this conference!

SURGERY EXCHANGE

A successful OR business manager requires the finesse of a financial wizard and the insights of an analytics expert. We've identified the key topics that lead to an efficient and profitable OR. Use these breakout session categories to build a personalized program so you can walk away with a well-rounded plan to continue leading your OR.

FINANCE

Focus on the bottom line of your facility — economic efficiency. Discover how to balance costs with operational improvements, staffing and make room for improvement budgeting.

Providing excellent healthcare requires an excellent team. Learn from the experts about how to engage staff at all levels to improve consistency of using test practices and prevent nurse burnout

SUPPLY MANAGEMENT

Delve into matching supply with demand. Find out how data transparency and the use of the right technology can drive efficiencies and cost savings.

PERFORMANCE IMPROVEMENT

There is always a new tool to help you run the OR. Discover how to properly integrate new technology to benefit your facility and create seamless transitions among your team.

DATA ANALYTICS

Large amounts of data can be overwhelming and not always have a clear path for improvement. Learn how to leverage analytics to sustain productivity, reduce costs and grow new service lines.

LET US WELCOME YOU TO HILL COUNTRY!
